## COMMUNICATION

2023-02-17

To whom it may concern

### **Import of animal by-products for research/diagnostic purposes**

The Swedish Board of Agriculture on the 23th of January 2023 granted an import permit for ALS Scandinavia, 977 75, Luleå, to import <animal by-products for research/diagnostic purposes (see enclosed document with diarienummer 6.7.18-00377/2023. The research samples are covered by the *European Parliament and Council Regulation (EC) No 1069/2009 of 21 October 2009 on health rules concerning animal by-products and derived products are not intended for human consumption and repealing Regulation (EC) No 1774/2002 (Regulation on animal by-products)*, and therefore require an import permit.

Condition for the permit to import are:

the samples are sent directly to ALS Scandinavia, Luleå (registration number for research/diagnostic purposes: SE3800126012),

the product is used for research/diagnostic use, and that

the handling of the product is carried out in a way that is safe from an animal health aspect.

The import permit is valid until the 22nd of January 2025.

If there is any further question concerning this permit, do not hesitate to contact us.

Yours sincerely,

Jessica Schenck

*The certificate has been signed digitally and therefore lacks a written signature.*
