Service Engineer

Location: Luleå, Sweden

We need to strengthen our technical service team with an additional service engineer. As a service engineer you will provide complete service, maintenance, troubleshooting and repair of our laboratory equipment. Important for this position is the passion and strong interest in technical equipment and solutions. We see you as a service minded person with an ability to work structurally and carefully. You are also a true team player with an open attitude, positive mindset and high level of personal responsibility.

Qualifications/ skills required:

You need to be flexible, quality-conscious, result oriented and have the capability to independently and structured execute your work. As a person you are communicative, self-driven, open minded with a strong force to resolve issues in a timely manner. You successfully interact and retain good relations with your team and other colleagues.

Other requirements:

- Technical education at university level or other documented qualifications that can be considered to provide equivalent knowledge
- Skilled in electronics, mechanics and a broad technical aptitude
- Minimum 3 year experience with advanced troubleshooting
- Analytical problem solving skills
- Experience with ICP, ICP-MS, MC-ICP-MS is an advantage
- Excellent interpersonal and communication skills
- Must maintain a valid driver's license

We offer:

We offer an exciting environment with the opportunity to influence and develop in an international company with focus on good values, responsibility and desire to succeed.

Contact:

Please send your application and CV to *satu.mustonen@alsglobal.com* no later than 11 December 2016.
