

## Profile

We are looking for an applicant with experience of different inorganic instrumental analysis. A genuine interest of process optimization and great data management skills is believed to be important to be successful in this role. The role also expects you to be good at building relationships with stakeholders on various levels.

You are believed to have about 3 years of work experience with inorganic instrumental analysis, with a relevant chemical university degree. Significantly longer work experience can compensate for lack of relevant university degree.

## We offer you:

- the opportunity to be part of our new production management team. Influence and co-operate with dedicated and enthusiastic teams in the Northern Europe region
- an exciting environment for development and growth
- the opportunity to make a real difference in optimization and management of operations for the future

## Interested?

Please send your application via e-mail to [personal.lu@alsglobal.com](mailto:personal.lu@alsglobal.com) not later than 15 August 2021.
